

Manufacturer Attestation

The test results provided in this application are reflective of the typical operational characteristics of the VeriWave WF1101.

The WF1101 unit tested with MAC address 00-13-E9-1D-00-E3 and radio M33142-001-0007 will be representative of the production units.

All changes in hardware/software/firmware to the WF1101 will be reviewed to ensure that the compliance of the unit is maintained.

Changes which non-trivially impact the attributes, functionality or operating characteristics documented in this report will be communicated to NWEMC, the TCB responsible for approving the equipment.
